

# Test

## Anatomy & Physiology terms

### Part One: Matching

**Instructions:** Match the term with the correct response. Write and the letter of the term by the definition.

A	Dorsal	C	Anterior	E	Ventral
B	Proximal	D	Cranial	F	Posterior

- \_\_\_\_\_ 1 Along the belly, undermost surface  
\_\_\_\_\_ 2 The rear of the animal  
\_\_\_\_\_ 3 Part of the limb closest to the body  
\_\_\_\_\_ 4 Towards the head  
\_\_\_\_\_ 5 The front of the animal  
\_\_\_\_\_ 6 Along the back, uppermost surface

### Part Two: Completion

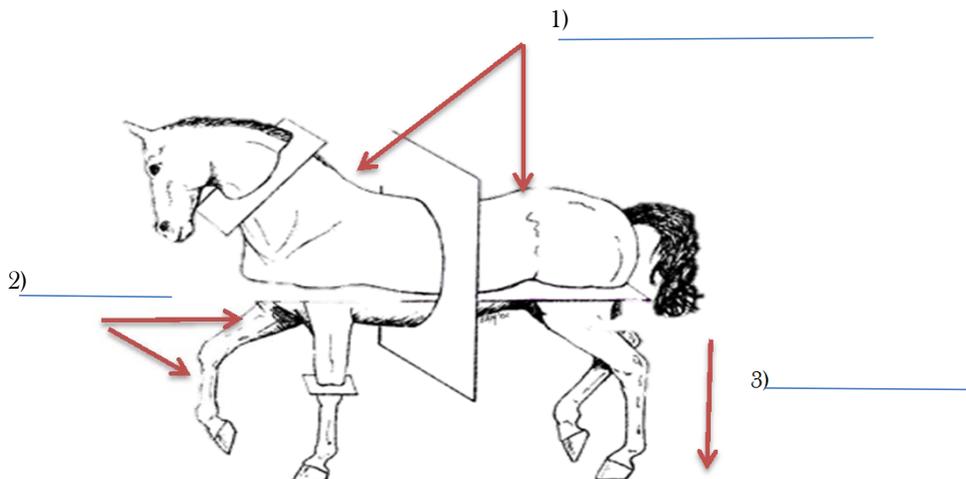

**Instructions:** Provide the word or words to complete the following statements.

- 1 The \_\_\_\_\_ is the part of the limb that is furthest from the body.
- 2 The \_\_\_\_\_ plane is the body plane that divides the animal into dorsal and ventral parts
- 3 Direction towards the tail is called the \_\_\_\_\_.
- 4 The median plane divides the animal into equal \_\_\_\_\_ and \_\_\_\_\_ halves.
- 5 \_\_\_\_\_ is the dividing plane between the cranial and caudal parts.
- 6 Body plane that is parallel to the median plane is the \_\_\_\_\_ plane.

### Part Three: Short Answer

**Instructions:** Provide information to answer the following question.

- 1 Label the correct directional terminology.

# Test

## Anatomy & Physiology terms

### Part One: Matching

**Instructions:** Match the term with the correct response. Write and the letter of the term by the definition.

A	Dorsal	C	Anterior	E	Ventral
B	Proximal	D	Cranial	F	Posterior

<u>E</u>	1	Along the belly, undermost surface
<u>F</u>	2	The rear of the animal
<u>B</u>	3	Part of the limb closest to the body
<u>D</u>	4	Towards the head
<u>C</u>	5	The front of the animal
<u>A</u>	6	Along the back, uppermost surface

### Part Two: Completion

**Instructions:** Provide the word or words to complete the following statements.

- 1 The distal is the part of the limb that is furthest from the body.
- 2 The frontal plane is the body plane that divides the animal into dorsal and ventral parts
- 3 Direction towards the tail is called the caudal.
- 4 The median plane divides the animal into equal right and left halves.
- 5 Transverse is the dividing plane between the cranial and caudal parts.
- 6 Body plane that is parallel to the median plane is the sagittal plane.

### Part Three: Short Answer

**Instructions:** Provide information to answer the following question.

- 1 Label the correct directional terminology.
