

## **NM FFA Floriculture Team Activity**

All 4 students from each chapter will work as a team to complete the following scenario.

### **The following are materials allocated to you:**

- 6 bubble bowls
- Decorative Rocks
- Aluminum Wire
- Variety of flowers
- Box of Fabric
- Table Cloth
- Table
- Watering Can

### **Scenario:**

Your team has been asked to prepare a tablescape for a potential client. This client has visited several other flower shops to contract for a special event and is hoping to award the contract at the end of the day. They have sent you a sample photo of the types of product they're looking for, and you are to recreate as much of the sample as possible. However, you can add your own creative flair.

### **The following are requirements of the tablescape display:**

- 6- bubble bowls to match existing sample
- 1- table runner for the center of the table (use cloth from box of fabric in the front of the room)
  - Table cloth must be placed on the table prior to setup
- A transition on the table between each individual bubble bowl is requested (aluminum wire, flower petals, rocks, grass, etc.)

**You will have 45 minutes to complete the centerpieces and setup the table.**
